Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs in 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the mid-month of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented include medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made, and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families with Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) may also be eligible for medical care. For money payment recipients, these persons are usually classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct results of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX
of the Social Security Act - June 1978

Payments made out of Title XIX funds in June totalled $1.547 billion, a decrease of $177 million from May 1978. Average monthly payments for the twelve month period ending in June equalled $1.5 billion, an increase of 0.1 percent from the twelve month period ending in May 1978.

Approximately 8.6 million recipients 1/ had vendor payments totalling $1.51 billion made in their behalf.

There were concurrently 261,559 Medicaid eligibles enrolled in health maintenance organizations whose premiums totalling $10.1 million were paid out of Title XIX funds.

Persons Served

The percentage distribution of persons for whom medical payments were made by basis of eligibility and money payment status for June is as follows:

Basis of eligibility	Total	Money Payment Status: Money payment authorized	Money Payment Status: Money payment not authorized
	Percent		
Total	100.0	77.1	22.9
Aged 65 and over	23.9	14.8	9.1
Blindness	0.6	0.5	0.1
Permanently and Totally disabled	17.0	13.4	3.6
Children under 21 in families	32.0	29.3	2.7
Adults in families with dependent children	21.0	19.0	2.0
Other Title XIX under... 21	3.2	---	3.2
Other Title XIX age 21-64	2.3	---	2.3

1/ Recipient estimate for Florida was based on average payments per recipient submitted for prior months and the recipient count for New York was inflated to reflect recipients for several outpatient services in New York City (See Annotations).

More than half (53.0 percent) of the recipients for whom vendor payments were made were members of families with dependent children. Children under 21 in families and other Title XIX recipients under 21 accounted for 35.2 percent of recipients. Recipients eligible on the basis of age 65 and over accounted for 23.9 percent of the caseload. Recipients who also received money payments outnumbered nonmoney payemnt recipients by more than 3 to 1. Among members of families with dependent children under 21, nine out of ten Medicaid recipients also received AFDC money payments.

Medical Payments by Groups of Persons Served

As shown below, the distribution of payments differs significantly from the caseload distribution. Payments for persons not receiving maintenance assistance are nearly equal to those for money payment recipients. The single largest proportion of payments (26.5 percent) are made on behalf of recipients age 65 and older who are not also recipients of maintenance assistance. Such recipients only represent 9.1 percent of the caseload. Payments for these recipients, to a large extent, are made to medical inpatient facilities which represent the more expensive types of medical services. Only 16.7 percent (about half of the corresponding recipient proportion) of payments are made on behalf of children under 21 years of age. The second largest proportion of payments (28.5 percent) are made on behalf of the permanently and totally disabled.

Basis of eligibility	Total	Money Payment Status: Money payment authorized	Money Payment Status: Money payment not authorized
	Percent		
Total	100.0	52.8	47.2
Aged 65 and over	37.1	10.6	26.5
Blindness	0.7	0.4	0.3
Permanently and Totally disabled	28.5	16.8	11.8
Children under 21 in families	13.5	11.6	1.9
Adults in families with dependent children	14.8	13.0	1.7
Other Title XIX under 21	3.2	----	3.2
Other Title XIX age 21-64	2.2	----	2.2

Payments by Type of Service

Inpatient services comprised 73.0 percent of medical vendor payments in June: hospitals (29.9 percent), intermediate care facilities (25.3 percent), skilled nursing facilities (17.8 percent). The change in monthly payments for inpatient services for the twelve-month period ending in June was 0.4 percent higher than payments for the twelve-month period ending in May. Outpatient and other professional services decreased by 0.5 percent. Among outpatient and other professional services, physicians' services and prescribed drugs accounted for 8.6 and 6.2 percent, respectively, of total payments.

Screening Services

During June 172,945 children were reported as screened under the Early and Periodic Screening, Diagnosis and Treatment Program. About fifty-one percent of the children screened were under six years of age. Fifty percent of the children screened had referrable conditions uncovered and ninety-two percent with such conditions uncovered were referred for diagnosis and treatment.

MEDICAL ASSISTANCE FINANCED THROUGH STATE (GENERAL ASSISTANCE) PROGRAMS

During the month of June 1978, twenty-one States reported a total of $61,322,755 in payments for medical assistance which were not subject to Federal financial participation.

Alaska	$ 509,524	Maine	$ 16,760	North Dakota	$ 2,095
California	34,488,796	Maryland 1/	3,779,064	Oregon	809,284
Colorado	4,192	Massachusetts	53,631	Rhode Island	445,831
Georgia	24,447	Michigan	751,480	South Dakota	76,205
Hawaii 1/	1,788,419	Montana	364,808	Utah 1/	37,488
Illinois	6,478,197	New York 1/	10,922,039	West Virginia	24,101
Louisiana	72,104	North Carolina	182,593	Wisconsin	491,697

1/ States are asked to report medical payments made from general assistance funds separately from Title XIX. Thus, the data are excluded from the detailed tabulations. However, New York reports combined data and Hawaii, Maryland and Utah included the information in the Title XIX statistics prior to July 1977.

ANNOTATIONS

1. The following definitions apply to symbols appearing in the detailed tables:

   ---indicates no data reported.
   Z indicates that the percent was less than 0.05.

2. Arizona has no Title XIX program and is excluded from the tabulations.

3. Oklahoma discontinued its agency pooled fund beginning July 1976.

4. Florida did not report recipients or payments by basis of eligibility of recipient and is excluded from all applicable tables. Data submitted for the month were estimated by the State.

5. Colorado reported recipients and payments by basis of eligibility only.

6. The recipient counts for New York are understated, because recipients of inpatient hospitals, outpatient clinic, physicians' services and prescribed drugs in New York City are not reflected in the reported totals.

7. States do not always report premium or per capita payments into the SSA system for aged and disabled recipients separately. Payments reported under the aged category include payments for the disabled. There is variance from month to month in States reporting SSA and HMO premium payments because in some cases, such payments may be made less frequently than monthly (Table 1).

8. New Hampshire payments for medical transportation and Colorado payments for dental services are reflected in Tables 1 and 5 only.

9. In addition to Colorado and Florida; Massachusetts, Nevada and Pennsylvania are excluded from Tables 10-13 because children and adults in families were not reported separately. Connecticut, Illinois, and West Virginia were able to report children and adults separately but were unable to differentiate medical vendor payments between adults and children in families. These States are excluded from the total percentage computation in Table 11. Colorado, and Pennsylvania did not differentiate Other Title XIX recipients by age and are excluded from Table 14.

10. In some States, two or more types of medical services may be grouped together under one class, such as South Carolina where skilled nursing facility services include payments to State mental institutions.

11. For some States, differences in vendor payment amounts between Table 3 and Table 5 are due to inclusion of retroactive adjustments which can be reported by type of service (Table 5) but which are not applicable to the recipients reported in Tables 2, 4, and 6-9. For the current month, however, expenditures for Michigan exclude accounting adjustments of (-$22,664).

ANNOTATIONS SPECIFIC FOR SCREENING TABLES 15-20

12. States omitted from tables either did not report on screening services for June 1978 or there were no individuals screened during the month. Massachusetts reported 15,758 persons screened but no other information.

13. California reported 102,886 individuals receiving comprehensive physical examinations in addition to the screening data.

14. Maryland reported 146 individuals screened in HMO's, but such cases were not distributed by age and 736 individuals screened by John Hopkins hospital comprehensive child care program for whom problems uncovered were incomplete and expenditures were not reported.

15. Included in the totals for Minnesota are 88 individuals screened at C and Y programs and for Rhode Island are 1,004 individuals including 117 newborns for whom there is no further enumeration.

16. Indiana and Ohio reported incompletely, with respect to referral status of children screened.

17. Hawaii, Nebraska, North Carolina, Ohio, Pennsylvania, Vermont, Virginia, Washington, and Wyoming reported incompletely with respect to problems uncovered during screening. California reported 6,452 individuals whose immunizations were inadequate. These individuals were excluded from the count of persons with other problems uncovered during screening.

18. Texas data do not include 6,599 dental screenings which are performed separately.

19. Payments for screening services were not reported by Pennsylvania and Puerto Rico; payments for New York and the Virgin Islands were not reported separately by age.

TABLE 1 TOTAL AMOUNT OF MEDICAL PAYMENTS UNDER TITLE XIX OF THE SOCIAL SECURITY ACT BY FORM OF PAYMENT AND BY HEW REGION AND STATE (JUNE, 1978)

QUARTERLY HIGHLIGHTS

APRIL - JUNE 1978

Payments made out of Title XIX funds reached a record $4.9 billion for the quarter ending in June 1978, an increase of 8.8 percent over the previous quarter and 9.3 percent over the same quarter in 1977. Recipients in whose behalf medical vendor payments were made averaged 9 million per month, a slight increase (1 percent) over the previous quarter, but a decrease of 5.5 percent over the quarter ending June, 1977.

The decrease in recipients from the previous year was not consistent among all eligibility categories. Members of families with dependent children decreased by 9.2 percent while all of the adult categories, the aged, blind and disabled increased; the blind and disabled showing a much larger percentage increase (7.2) than the aged (0.8). 1/ Decreases in other Title XIX recipients, particularly persons aged 21-64, may be largely due to changes in reporting procedures. Despite substantial decreases, members of families with dependent children continued to represent more than half of the Medicaid caseload; however, expenditures in their behalf represented only 28.7 percent. The aged and disabled accounted for nearly two-thirds (65.6 percent) of Medicaid expenditures.

Inpatient services accounted for a slightly larger share (72.6 percent) of Medicaid payments during the quarter than in the previous

---

1/ New York State's recipient counts show an estimated decrease of 200,000 per month over the previous year. Accurate recipient counts for the State are not available at this time due to a systems conversion. When the New York data are excluded from the national caseload, the pattern of an increase in adult categories and a decrease in members of families with dependent children is still evident.

quarter. Payments for hospital services and skilled nursing facility services increased more than intermediate care facilities. However, the year-to-year change for intermediate care facilities was substantial (18 percent). There were increases over the previous quarter for all services, but dental, outpatient hospital, family planning services and other care decreased from the previous year's levels.

TABLE Q-1.-- AMOUNTS OF MEDICAL VENDOR PAYMENTS UNDER TITLE XIX BY TYPE OF SERVICE,

FOR QUARTERS ENDING JUNE 1977 THROUGH JUNE 1978

(In Thousands)

Type of Service	April-June 1977	July-September 1977	October-December 1977	January-March 1978	April-June 1978	Percentage Change From.....	
						January-March 1978 To April-June 1978	April-June 1977 To April-June 1978

MEDICAID FINANCED ABORTIONS

FEBRUARY 14, 1978 - JUNE 30, 1978

The passage of P.L. 95-205 limited Federal funding of abortions under Medicaid to those which met the following criteria: (1) the life of the pregnant woman would be endangered, if the pregnancy were carried to term or (2) severe and long-lasting damage to the health of the pregnant woman would occur if the pregnancy were carried to term or (3) the pregnancy occurred due to rape or incest.

The regulations and quarterly reporting system for Medicaid abortions were implemented on February 14, 1978. The results of the first report which covered the period February 14-June 30, 1978 follow.

A total of 810 Medicaid abortions with Federal Financial Participation was reported by 29 States. Expenditures for the abortions including Federal and State and local funds totalled $226,921. Twenty-threestates/areas (Alabama, California, Delaware, District of Columbia, Guam, Hawaii, Iowa, Kansas, Louisiana, Massachusetts, Michigan, Minnesota, Missouri, Montana, Nebraska, Nevada, New Hampshire, Puerto Rico, Rhode Island, Utah, Vermont, Virgin Islands, and Wyoming) have reported that no abortions were performed that met the criteria of the legislation cited above.

The vast majority of reported abortions, 546, were justified because the life of the pregnant woman would have been endangered if the pregnancy were carried to term; 146 were justified under the

criterion that severe and long-lasting damage to the health of the pregnant woman would have occurred and 24 abortions were justified on the basis of rape or incest (see Table Q-5).

NUMBER OF REPORTED MEDICAID ABORTIONS, BY STATE AND JUSTIFICATION FOR ABORTIONS, FOR WHICH FEDERAL MATCHING FUNDS SHOULD BE AVAILABLE UNDER P.L. 95-205, FEBRUARY 14, 1978 - JUNE 30, 1978
